Rented to good tenants for a long period. Buildings in good repair and pleasantly located. Apply to C. S. BARTOW. Administrator's Sale of Real Estate. IN THE MATTER OF THE ESTATE of C. Kanains, deceased, intestate.—By virtue of an order of sale by the Hon. C. C. Harris, Chief Justice of the Supreme Court, sitting as a Court of Probate, on the 6th day of January, A. D. 1889, the undersigned will sell at public auction.

ON SATURDAY, DECEMBER 18th, 1880, At 12 o'clock noon, at the front door of Aliiolani Hale, all the right, title and interest which the said Charles Kanaina, deceased, had in and to THE FOLLOWING PARCELS OF LAND, NAMELY: LOT 1-16 AIEIE, in Kalihi, Oahu, and containing

1.07 2-1.EAHA, in Kaithi aforesaid, and containing an area of 63 45-100 acces, more or less. (These two lands adjoin each other, and are excellent grazing lands. Trio Royal Patent.) LOT 3-ONE LOT OF LAND situated in Pamoo 1.0T 4—That lot on the corner of King and Purchbowl streets, with the houses thereon, containing an area of 17-100 of an acre. This lot is subject to a life interest of one Mrs. Kacliu, who is now about 70 years of age; the life interest to be stated on day of sale.

1.0T 3—Lot in Watkiki, SARALLE, containing an

LOT 6 Lot in Ili of Pau, Waikiki, containing an area of 25:00 of an acre. This is one patch, and can be planted in kalo or rice. I.O.T.7—Lot in Manoa, consisting of 14 acres. This lot is leased for \$35 per annum, payable semi-annually. The lease expires September 30, 1891.

LOT 8 The ARTPUALOF HAPIKU, situated in Koolaupoko, Cahu, survey of which is now in course of preparation. This is a valuable piece of land, comprising grating and rice lands and valuable fish pends, and will be seld subject to a lease of \$130 per annum, expiring December 31, 1884; also a second lease for \$100 per annum, expiring October 31, 1886. Also, one lease expiring Dec. 31, 1901, \$39 per annum. LOT 9-The well known lot of MAIMORIPO, elt-nated on Palace Walk, and containing an area of 78-100

of an acre.

10—The BUILDINGS on the above lot to be sold separately, and to be removed within — days after the sale. The lot of Halmoeipo (Lots 2 and 10) will be sold ON THE PREMISES, immediately after the sale of the other lots. The terms of the sale are cash, and deeds at the expense of the purchaser, subject to approval by the Probate Court. and For Charts and Surveys and other information apply at the office of W. C. PARKE, Administrator of the Estate of C. Kanaina. Honolulu, October 29th, 1886. 9 ft 825

NOTES OF THE WEEK.

Dr. EMERSON is vaccinating physician for Oahu. THE "Royal Progress" is progressing satisfactorily, we hope. A FINE piano has been added to the attractions

of the reading room. ONLY three passengers left Honolulu for the coast by the Ho Chung . THE bark Lady Lampson is now due here, 23 days out from San Francisco.

Our thanks are due to Mr. W. C. Laine for copies of late Chinese papers. THE Health officers have provided themselves with material for yellow flags.

THERE was another heavy down-pour of rain last Monday morning before day light. COMMUNICATION with infected vessels, should any arrive off this port, is now prohibited by the Board

A NUMBER of buildings are being erected in and around town. We hear of more building to be done on the plain. An addition containing two large rooms is being added to the Fort Street School to be used as the

FROM Mr. W. P. Alexander we learn that the rainfall at Wailuku, Maui, for the month of No-HER MAJESTY Queen Emma and Her Highness

Ruth Keelikolani sailed on Monday evening in the C. R. Bishop for Koloa, Kauai. THE regular meeting of the Hawaiian Mission Children's Society will be held this evening at the residence of Mr. P. C. Jones, jr. Last Monday was a busy day along the wharves.

Five coasting steamers left for domestic ports and the Ho Chung departed for San Francisco. A RACE is announced to come off at Kapiolani Park on the 15th of January, for \$500 a side, be-tween two horses from Wailuku, Maui.

THE brick building on the Esplanade recently occupied by J. T. Chayter, which has been leased by Chinese, is being converted into a rice mill.

Tuz rainfall on the night of the 30th ult., as measured by R. McKibbin's rain gauge, was 5.22 inches, and not 5 inches as we reported last week. Most of the Chinamen who arrived by the Lasker have supplied themselves with new white felt hats. The remainder of their dress is emphatically

On Thursday the schooner Haleakala was towed out of the harbor by the Pele, bound for C. Afong's plantations on Hawaii, with a number of Chines who arrived by the Lasker.

The bark Lasker arrived on Monday last, thirty days from Yokohama, Japan, at which place she put into on her passage here from Whampoa, China, with Chinese laborers. His Hoson Judge McCully left on the Likelike

last Monday for Maui. The Circuit Court of the 2nd Judicial Circuit convened on Tuesday, the 7th THE rainfall for November at W. W. Hall's was 8.62 inches, at R. McKibbin's residence on Bere-tania street, 8.23 inches and at the Ice Works in Nuuanu valley, 9.38 inches.

THE Express keeps coming out at a later hour every succeeding Wednesday, but we give no credence to the report that it is soon to be called the Wednesday Midnight Express. It is proposed to hold a fair during the present

month in the new Chinese Church on Fort Street, for the purpose of raising funds to assist in de-fraying the expenses of that building. THE Friend for the current month contains a

continuation of the editor's trip abroad and gives a graphic description of the "Passion Play" at Ober-Ammer Gau, by Mr. F. W. Damon. Wonk on the brick building of Messrs. Lewers & Dickson on Fort street between Merchant and King is progressing rapidly and will be a great im-provement to that block when completed.

FROM the Hongkong Daily Press we learn that

the authorities find it almost impossible to check the opium vice among the Chinese. The majority of arrests are for smoking or dealing in this drug. An excavation is being made in front of the

Aliiolani Hale for the reception of the pedestal of the statue of Kamehameha. The first shovelful of earth was thrown by Mr. Lishman on Monday last. THE steamer Likelike went away on Monday evening crowded with excursionists for Mauna Loa, and Chinamen for the various plantations on Hawaii. Most of these latter arrived by the Ger-man bark Lasker.

THE police authorities have been paying their attentions to the drivers of drays, who have been violating the law requiring all vehicles to carry a light after dark, and for fast driving. Several have been arrested and fined.

Elele Poukolu. The writer in last week's issue of that paper assumes the role of a correspondent, but we strongly suspect it is our old friend the "Enlightener" in a new guise. THE old story of the Scotchman who locked his stable after his horses were stolen is familiar to

We hope next week to translate some more

everyone. The Board of Health is showing equally commendable activity in trying to lock out the small-pox after it has got in. Going along Queen street on Wednesday last we met a gentleman gallantly struggling against dif-ficulties; a fresh south-westerly breeze was blow-ing and the result was that our friend was holding his hat by one hand and his nose by the other!

THE Chinese yet remaining in town who arrived

by the Lasker exhibit more curiosity at what they see on the streets than is common with their countrymen. They may be seen every day inspecting buildings, wagens, show windows, etc. They are readily distinguished from those that have lived here some time by their manner and their dress, which is thoroughly Asiatic. THE barks D. C. Murray and Jane A. Falkinburg arrived from San Francisco on Tuesday last. They were reported off Diamond Head on Monday morning but were carried out to sea by adverse winds. On Tuesday morning they were again off Diamond Head and were towed into port. The Murray brought a large mail, but as she left the Coast a week before the last steamer Australia she brought no late news.

Last Saturday afternoon the match game of cricket between the H. C. C. and Honolulu Iron Works Club came off at Maikiki. The Iron Works boys who were first at the bat made a score of 52. The playing of the Honolulu Club was not very assuring of success until Lishman and Freeth got to the bats together making a score of 60. The total score of the Honolulus was 79—27 ahead of their opponents, when the stumps were drawn.

THE Advertiser of Saturday last was a poem. We learn from it that on Tuesday night of last we learn from it that on Tuesday night of last week "the vivid lightning flashed, the deep-voiced thunder rolled, the water-laden rain clouds poured, and it is thought that many a road supervisor 'swored.'" We read in it of the "late outpour-ings," of the "quiescent Nunanu," and of the "musical Waikahalulu." Have we a second "Et-trick shepherd" in our midst? We suggest that he be appointed poet laureate.

Tun steam roller made quite a sensation in Nuu anu Avenue one day last week. Three or four with, not to mention backs. The machine is no doubt a very valuable assistant in keeping our roads or streets in good condition, but its use should be restricted as nearly as possible to non business hours, and a man chould always accompany it to warn passers-by and to help them if necessary, in the case of frightened or restive borses.

JOHN ALLER, charged with having opium in his possession, was fined \$100 in the Police Court this week and sentenced to six months hard Jahor, and the opium was confiscated by the Government. Aiwahi, charged with larceny, pleaded guilty and was sentenced to three months imprisonment at hard labor. George Bell, for stealing a hatchet from the Telephone Company, also received three months. T. Miller, in whose possession was found ten cans of opium brought by the Jesuie Pitts, was tried on Wednesday for smuggling opium and sentenced to three months imprisonment at hard labor and to pay a fine of \$100.

Tax total number of deaths reported in Honolulu for the month of November was thirty-seven. Of these 24 were males and 13 females. Twenty-five were natives of the Hawaiian Islands, three were from China, two from the South Sea Islands, two from Great Britain, two from the United States, one from Denmark, one from Nicaragua, and one from Portugal. The mortality for the month of November last year was 57 and for the same month in 1878, 58.

The band will play this afternoon at Emmi Square. The following is the programme .... Mendelssoh

THERE arrived in Honolulu last week by the He-Chang 486 Chinese, and by the Lasker 300-nearly

Ching 486 Chinese, and by the Lasker 300—nearly 800 in one week. Of this number only twelve were females. About 15C3 of these people have arrived here during the last four months. If the Chinese are considered by those most interested in the labor question to be a desirable class of immigrants, the problem will solve itself. If they are not a desirable class, immigrants must be brought from other countries before it is too late. If anything is to be done, it must be done now, or the golden opportunity will have passed, perhaps forever.

With the number for December the Californian With the number for December the Californian concludes its first year and second volume. The editor says: "So far as our patronage is concerned we have met with a generous welcome. Starting in an inauspicious time the Californian has yet made an auspicious beginning." This we are glad to hear and we think that its second year will be even more prosperous than its first. A perusal of the index for the volume, which is published this month, shows what a valuable addition to magazine literature has been contributed by the Californian. In the present number the following will be found particularly interesting: "Savonarola," "The Ancient Glaciers of the Sierra, "and "Mission San Gabriei"—a poem.

THE American bark Amy Turner, Capt. Newell, arrived on the 3d inst., 138 days from Boston. She arrived on the 3d inst., 138 days from Boston. She is a very handsome vessel and appeared at her wharf after her passage through the Atlantic, round the Horn and up the Pacific, a perfect model of neatness and efficiency. It is always easy enough for a smart Captain and crew to give a ship a coat of paint on any fine day towards the end of a passage, but to an accustomed eye the way the sails are furled, the lead of the running gerr and the condition of the standing rigging, is more eloquent than paint, and we know of scarcely any ship brought into this harbor in the highly creditable condition of Capt. Newell's.

AN ATTEMPT was made to enter Dr. McKibbin's store from the mauka side, on Sunday night. The store from the mauka side, on Sunday night. The burglars first tried the window and pried up the sash, but were baffled by the iron bars inside. They then attacked the door, but failing to open it, stripped off the moulding of the upper (and larger) panel and bored two holes, one at either bottom corner in order to wrench out the panel, but here they were beaten again, for the door was lined with sheet iron. The instrument employed, a blunt piece of rod-iron, was left behind. The attempt must have taken up a considerable time, and necessarily made a good deal of noise. The police knew nothing about it until they were called in, the next morning. It is supposed that the burglars were in search of opium. This is the fifth or sixth attempt on the same store.

HONOLULU and her affairs continue to attract a good deal of attention in the United States. Under the heading of "Sandwich Island Affairs," we learn from the Deseret News of Nov. 9, 1880, that the Mormon Conference here commenced on the 6th of October, lasted for "five days of refreshing religious exercises." Thirteen meetings were held and Elder B. Cluff lectured on the book of Mormon for an hour and a half each evening. Four "Elders," foreigners to judge by their names, and ten native Elders, were appointed for mission purposes in this group for the next six months. The writer is very hard on "Apostate Mormons," who will, he says, always vote for the man that pays best. We congratulate ourselves and non-Mormon readers at the thought that we have not to listen to "Brother Cluff on the book of Mormon" for an hour and a half each evening, to say nothing of the rest of the sixty speakers, who are reported as having helped to provide the "refreshing exercises." good deal of attention in the United States. Un-

On Saturday evening last the California Theatre Co. gave their first entertainment in Honolulu at was given the pretty little domestic drama." Chim-ney Corner" in a thoroughly artistic style, no rant-ing or roaring, but really good acting, so good that we could not help wishing them a better theatre and a larger audience. The latter they are sure of when

CHARLES THORNTON one of the oldest residents

this group, died at Kona, Nov. 20th. THE eruption at Mauna Loa and Kilauea is still ctive, but seems to be diminishing at the former

at once to Kohala where we hear that a grand ball is to be given in honor of the visit of His Majesty and palace attendants. A committee consisting of three natives an

His Majesty landed at Mahukona and proceed

three whites has been selected by the people of Kohala to secure the means and make the neces-sary arrangements for the erection of a statue to Kamehameha I at that place. On Saturday, Nov. 27th, three races took place on the Kalopa track near Honokaa. The track is on the Kalopa track near Honokaa. The track is 1100 yards in length and the distance was repeated. Four horses entered for the Honokaa purse of \$100—Nuhiwa, Kimo, Prince and Bilk. The former was winner, making the time in 1.16 and 1.18. The second race, contested by Kukui and Dick, was won by the former—time, 1.19. The third race, between Colonel and Brown, was won by the latter—time, 1.18. After the horse racing, a 100-yard foot race took place and was won by Wm. Hastie,—time, 11½ seconds. There were five contestants in this race. endangering his life. He cannot buy land and

KAUAI. A COMMENCEMENT has been made for a fine bridge over the Waiuli stream on this Island, an impro-ment much needed.

Mr. H. J. KINNEY was killed last last week at the Kilauea plantation, by the accidental explosion of giant powder caps in his pocket. THE Kilauea Sugar Company, Kaua', are having considerable trouble with some of their white la-borers. Five of them who refused to work were taken to Hanalei and fined.

Queen's Hospital Report. A semi-annual meeting of the Board of Trustees of the Queen's Hospital was held at the Room of the Chamber of Commerce on Wednesday last the 8th December when the Treasurer made his semi-

annual report showing the amount of of \$3,207 68 on hand. The physician's report was read and the same being of interest to the community at large we give it in full.

The report of the Visiting Committee wa very respect favorable as to the condition of the hospital and the treatment of its inmates, and we are happy to make this important institution maintain its position of efficiency and use-Julness

To the Trustees of the Queen's Hospital: Gentle-men.—I have the bonor to submit the following for the quarter ending November 30th, 1880.

The total number of patients at present in the hospital is 77, viz: 58 Hawaiians—31 males and 27 females; and 19 foreigners—15 paying.

The number of admissions during this period were, 130, viz: 88 Hawaiians—53 males and 35 females and 42 foreigners. Discharged 102, viz: 71 Hawaiians, 43 males and 28 females and 31 for

Deaths, 20, viz: 4 Hawailans, 7 South Sea Islanders and 9 foreigners; 3 general debility, 5 dysentery, 3 pulmonary consumption, 2 bronchits, 2 desired to become citizens or perform the ductions of heart, 1 convulsion, 1 accident, 1 paral-

News from the Volcano.

Hr.o. December 2d, 1890. Eprem Sarunday Press: - November 26th-This evening the flow was more brilliant than for some time past and there was more reflection in the sky. The flow is extending towards Manna Ken. - November 27th. - The flow this t. w. 50'clock is about the same as last night, but we could see more plainly where it proceeds from. The lava seems to be quite high and several cones have made their appearance; one is quite large and is flat on top, and looks like a house. The party of six who went to see the flow have returned and report it so hot that they could not get near enough to see it well. This morning there was much snow on Mauna Kea. It was an odd sight, on one mountain snow and on another opposite a fountain of fire. Nov. 28th.—The flow at 9 r. m. is not as bright it

was, except at the end, where it is brighter than we have seen it for some time; it seems to be running quite rapidly. Can see no flow towards Kau. The place where the flow proceeds from, looks onger than usual, as it also does at the end. November 29-30,-The flow was very long and bright last night. A gentleman who returned today reports that Kilauea is active. The south lake is overflowing; says a new lake has 'just com-menced to flow near the south lake. All the lakes are getting more active than usual. We can see a

large reflection from Kilauea quite often from December 1st .- Parties who have been to see the flow returned and report that there are three streams. We can see but one from here. They say that the three are very near together and about 100 feet wide, and will soon join.

Their proximity makes them appear as one to us. The largest flow is not over twelve miles long and is about thirty miles from Rido. The three flows are coming towards Hilo. It broke out in about the same place as in '56. It con menced on Friday evening Nov. 5th, and by Saturday it had run about 18 miles. The crater can be reached in about three days from here. We are assured that we need feel no alarm as the flow could not reach us in at least three months, the way it is running at present. The lava is of a very peculiar color and the parties who returned have not seen any like it before.

December 2d .- Could not see the flow as well as usual last night but there was a great reflection. The place where the flow proceeds from was more plainly seen than common. Am giad to see that we are to be favored with a large number of visitors from Honolulu. The weather for the past four weeks has been perfection. Never saw finer in my life. November is the time to come, and those who intend to come should come at once while we are so highly favored as to weather. Yours Truly, J. A. M.

The Chinese in Hawaii.

Editor of the Saturday Press:

The want of labor has been severely felt throughout this Kingdom for some time past, and the present vast infinx of Chinese has in no way lessened the demand as far as the hacle is concerned. The privileges and freedom which a Chinaman enjoys on his landing here are such as he never experienced in the land of his birth. They are of a class that never worked for a foreigner before, and therefore they prefer to engage in the service of their countryman to that of the hated fanqui (foreign devil). This country not having any treaty with China, the question may reasonably be asked, Are the Chinese to be allowed to "go as they please"? If so, the sooner a treaty is made the better. No doubt were a treaty contemplated, and an Ambassador dispatched to the Flowery Kingdom, the Chinese Co. gave their first entertainment in Honolulu at the Royal Hawaiian Theatre where they will continue to play until the Music Hall is ready for occupancy. The programme, Saturday evening was serio-comic little play. "A Husband to Order," and the laughable farce, "The Wandering Minstrel," both of which were admirably executed and were well received by the large audience. Where all of the players did so well we cannot commend anyone in particular. Mr. Chas. B. Wells, J. M. Francoeur and Miss Eliza Long are well-known in Honolclu, and the other members of the company have already become favorites with the public. On Monday evening the company rendered the comedies "Six Months Ago and "Checkmate." On Thursday was given the pretty little domestic drama "Chimwould receive his propositions courteously, called Chinese "cheap labor" is solely a trades-union feeling founded on trades-union grounds, better known in China under the cognomen of a guild. Proposals have been made in the Press to meet both the scarcity of domestic servants and other labor difficulties. but the importation of Chinese does not appear to assist in the solution of the problem. The State of California has found this out to its cost. It ought to be a matter of great interest to the rulers of this country to learn the nature of the treaty on the subject of immigration that has lately been concluded between the United States Commissioners and the Government of China. Ought not a Hawalian landing in China to be allowed the same privileges as a Chinaman in Hawaii? Certainly he ought. But such is far from being the case. If the sojourner in China is possessed of wealth, he is permitted to invest it in Chinese produce. principally toa and silk, at a treaty port only. He is not allowed to buy from the grower, neither will he be permitted to venture beyond the confined limits of a treaty port without

> with the entire balance. A brief consideration will show how grave a state of things this is. Let us glance for a moment at the proportion of imports and exports between the two countries. The former consists principally of victuals and wearing apparel for the Chinese, paid for by the pro-duce of Hawaiian soil, while the experts are nil with the exception of treasure. The drain of money to China is steady and certain, and it ought not to be surprising if it be regarded with some alarm. We will now advert to a still more serious

till the soil as a Chinese does here, and also in

Australia, the United States, and elsewhere,

The Chinese in this country send money home

from time to time, and finally when they have

acquired a little fortune, they return home

aspect of the question, viz: the moral aspect. The laborers that are experted from China betion. They are nominally "engaged" to emi-grate, but in reality it is not so. To an observant eye they appear to be generally devoid among the native and foreign population of these of moral sense. They have but little notion of common humanity or the value of human life, and possess few virtues beyond industry and an apparent kind of quiet orderliness. They live in vice and depravity before they come here, and "morality" does not exist amongst them. Their chief gratification is abandonment to the fascinating interiestion of the opium pipe. Of this class are they that come from Canton. An official report made in California recently, states, that "during their residence here they have never adopted our habits, dress, or educational system; have never learnt the sanctity of angesth; never idol gods, or advance one step beyond the tra-The highest number of in-door patients was 82: the lowest 63.
